DETAILED ACTION

Response to Arguments

Applicant's arguments see page 2, filed 11/16/2005, with respect to the 35 U.S.C 103 rejection has been fully considered and are persuasive. The rejection of claims 1-80, 88 and 89 has been withdrawn.

The restriction requirement has been withdrawn and the methods of making and methods of use claims are hereby rejoined. Claims 1-95 are now pending.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The pegylation (the covalent addition of polyethylene glycol) of peptides and proteins is well known in the art and the benefits to such pegylation are also well known as argued in the previous office actions. The pegylation of the T20 polypeptide through the use of the linker between the T20 peptide and the polyethylene glycol is not suggested nor explicitly taught in the prior art. Therefore, the pegylated T20 peptide of Formula I and Formula III is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

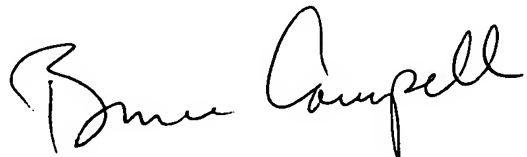

Claims 1-95 are allowed
